PO: N/A

Date of Manufacture: SAMPLE SAMPLE

Immunogen: Human Factor X Heavy Chain

Clone ID#: 508

Antibody purified by Protein G affinity chromatography from cell supernatant. Binds human factor X and Xa in solid-phase ELISA. In immunoblotting, binds factor X heavy chain. Does not bind I-125 labeled factor X or bovine factor X. Binds factor X in presence of EDTA or Ca²⁺. No effect on plasma prothrombin time (PT) and APTT. Partially inhibits prothrombin activation in prothrombinase assay.

Store lyophilized antibody at -20C. Reconstitute with good laboratory water and centrifuge to remove insoluble material. Store reconstituted antibody in aliquots at -20C. Avoid repeated freeze-thaw cycles.
