

Certificate of Analysis

Catalog #: DAS-APHRP

Lot: SAMPLE SAMPLE

Description: Donkey Anti-sheep IgG(H&L Chain) Affinity Purified IgG Peroxidase

Concentration: 1 mg/ml

Aliquots: 1 x 0.50 mg

Volume/aliquot: 0.500 ml

Activity: N/A

Total protein: 0.50 mg

Buffer: Buffered Stabilizer Solution Containing 50% glycerol (v/v)

Storage: -20° C

Expiration Date: SAMPLE SAMPLE

PO: N/A

Date of Manufacture: SAMPLE SAMPLE

Immunoelectrophoresis of this antibody prior to conjugation gives a single precipitin line of identical mobility to that obtained with purified sheep IgG. There is virtually 100% cross-reactivity with goat IgG when tested by ELISA. This product is suitable for use as a detecting antibody in ELISA and other solid phase immunoassays for sheep IgG.

Optimum conditions for use of this antibody in analytical procedures should be established in each laboratory. Avoid exposure to sodium azide as this is an inhibitor of peroxidase activity. For research use only.

Thank You,
Quality Assurance
