Prior to conjugation, this antibody was specific for Pg as demonstrated by immunoelectrophoresis and ELISA. Suitable as a source of peroxidase-labeled antibodies to Pg. Store between -10 and -20 C. Product will become viscous but will not freeze. Avoid storage in frost-free freezers. Keep vial tightly capped. Allow product to warm to room temperature and gently mix before use. Avoid exposure of conjugate to sodium azide or thimerosal, as these can inhibit peroxidase activity.
