Immunogen: Recombinant canine FVIII (cFVIII)

Prior to conjugation, this antibody was specific for canine FVIII as demonstrated by immunoelectrophoresis and ELISA.

Suitable as a source of peroxidase-labeled antibodies to canine FVIII.

Avoid exposure to sodium azide as this is an inhibitor of peroxidase activity.

Optimum conditions for use of this antibody in analytical procedures should be established in each laboratory.

For Research Use Only.

Thank You,  
**Quality Assurance**
