Prior to conjugation, this antibody was specific for rabbit, H&L chain as demonstrated by ELISA and immunoelectrophoresis. This product is suitable for use as a detecting antibody in ELISA and other solid phase immunoassays for rabbit IgG.

Optimum conditions for use of this antibody in analytical procedures should be established in each laboratory. For research use only.

Store between -10 and -20 C. Gently mix before use. Avoid exposure of conjugate to Sodium Azide or Thimerosal, as these can inhibit peroxidase activity.
