Hazards Identification

Non-hazardous liquid. This product is non-flammable. May cause eye irritation (mild to severe) in some individuals. Potential environmental effects are not available.

Composition/Information on Ingredients

Hazardous Ingredient: Detecting antibody diluent (Proprietary formulation)

Hazards Identification: The hazards identified with this product are those associated with the Detecting Antibody diluents used as a stabilizer solution. Though complete toxicity information is not available, none of its components are known to be toxic or hazardous at use concentrations. Product is an aqueous, protein-containing mixture which contains the mercury-free preservatives methylisothiazolone (0.01%) and bromonitrodioxane (0.01%) and 10ppm Proclin 300, which can produce adverse health effects in their concentrated forms. For more specific toxicity information on these components, refer to SDSs available from Sigma-Aldrich.
